University of Alberta

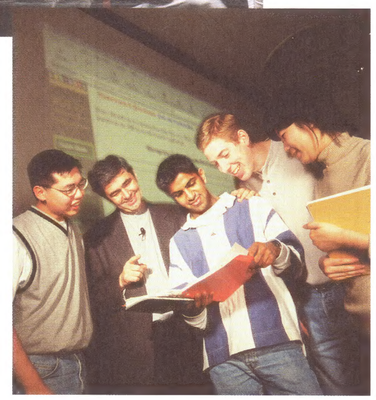
The University of Alberta in Edmonton is one of Canada's largest research-intensive universities serving some 30,000 students with close to 7,000 faculty and staff.

We have a very simple objective here at the U of A – to be indisputably recognized in teaching, research and community service, nationally and internationally, as one of Canada's finest universities and amongst a handful of the world's best.

And we are well on our way to achieving this goal.

We will welcome the world for the **2001 World Championships in Athletics** being held in the city August 3 – 12, 2001. This is the third largest sporting event in the world next to World Cup soccer and the summer Olympics.

Canada's top engineering students left: **Aaron Hryciw, Katherine Huggons, Tim Poon, John Cotton,** and **Agnes Yuen**



3M Teaching Fellow and business professor **Erhan Erkut** with students

Our athletes dominate the national varsity sport scene winning nine medals during the '99-2000 season. The U of A also leads the nation with the most **Academic All Canadians** – students who successfully combine academic and athletic excellence.

U of A professors excel in the classroom and we continue to have the most **3M Teaching Fellows** – Canada's only national award recognizing excellence in undergraduate teaching.

Our researchers have the distinction of participating in all the federal **Networks of Centres of Excellence** – centres for university/industry/government research collaboration and partnerships.

We're also headquarters for two Network Centres – Protein Engineering and Sustainable Forest Management.

The U of A ranks among the top five Canadian universities in total **research funding** from the three federal granting councils. Since 1988/89 we have received more than $1 billion from external sources for research and our new target is a cumulative total of $2 billion by 2005.

Enjoy your visit to our park-like campus – taste the delights found in our many eateries in SUB and HUB International; browse in our renowned Fine Arts Gallery; take a contemplative stroll through our Kurimoto Japanese Garden (North America's northern most Japanese garden) at the Devonian Botanic Garden; or enjoy our world-class physical education facilities in the Universiade Pavilion or Van Vliet Centre.

Lorne Tyrrell
A drug based on the Dean of Medicine and Dentistry's research has the potential to save millions of lives worldwide. Heptovir is used in the treatment of Hepatitis B.

Aerial view of the U of A campus situated on the south bank of the North Saskatchewan River – the city skyline provides the backdrop

Our athletes lead the country with the most championship medals
